NOT RESTRICTED  
TO LAW STUDENTS

# ABOUT THE COMPETITION

**As the masses are turning towards Law as a choice for professional courses owing to the attractive opportunities available in the Corporate and Human Rights sectors, the established and renowned firms are facing difficulties in short-listing the best students to intern and later, be a part of their revered family. And as every student tries to beautify his or her C.V. by mentioning their accomplishments, it is the Statement of Purpose, i.e., the document which explains why he or she wants to work with a particular organization in the first place, makes the difference.**

**Interestingly, people take this for granted and as a result, often lose out on the best internships, despite having the capacity and the capability. Here, Jus Commune provides you a chance to not just take time out to devise the best possible Statement of Purpose for yourself, but also ensure that it is rewarded duly; if not, your sincere efforts shall produce this useful document capable of landing you the desired Internship or other opportunity.**
