About us

Adani Institute of Infrastructure Management (AIIM), established in 2009, has been at the forefront of infrastructure management education in a specialized & scientific manner, with its synthesis of research, education, and consulting. AIIM's success is built on an interdisciplinary approach by bringing a system perspective to grand challenges in areas such as infrastructure, energy, health care, education, and the allied sectors. AIIM campus provides learning ambience for intellectual excitement, fruitful interaction and professional growth. AIIM is uniquely placed to exploit and leverage synergies with the one of India's fastest growing Infrastructure conglomerate – the Adani Group. The participants of both short as well as long duration Programmes will not only interact with a group of highly distinguished and internationally acclaimed faculty, but will interface with the top head-honchos of the sectors. AIIM offers various programmes, such as PGDM (Infrastructure Management), PGDM (Law), 1-Year Executive Programme and Continuous Education Programmes.

PGDM (Law) Programme at AIIM

PGDM (Law) programme is an AICTE-approved two-year full-time specialized and unique programme for fresh graduates / practitioners who are passionate about pursuing a career in 'Legal & regulatory' expertise in infrastructure management. PGDM (Law) Programme is India's first-ever PGDM program exclusively focusing on 'legal & regulatory' expertise in infrastructure management

The PGDM (Law) programme is offered as interdisciplinary blend of business functions, infrastructure models and legal and regulatory aspects. PGDM (Law) Programme, besides providing managerial skills in core subjects, equip the students with legal expertise required for management of different businesses.

PGDM (Law) Programme prepare students to be future CEOs and COOs of various business organisation with sound knowledge of laws relating to establishing and running the corporate businesses. They will be managers with legal skills who will protect themselves, their organisation and their customers from unnecessary litigations. They will have an edge over the other students who have been trained only in Management subjects. PGDM (Law) programme is tailor made for future ready managers who are prepared to navigate the cutthroat business world and also the tough and turbulent legal compliance framework. As corporate good governance takes centre stage in today's economy, the value of a Manager who knows how to strike a balance between economic interests and legal compliances is higher than ever before.
